

LIFT-U's Hidden Access

A DIVISION OF

Our Hidden Access Lift is...

Invisible until needed

Stores beneath the floor surface when aesthetics are critical
Ideal application for theaters, auditoriums, performing arts centers, historical buildings, etc

081215

Lift-U's HAL

The HAL, or Hidden Access Lift is a vertical platform lift. The lift is stored beneath the lower floor surface and is invisible until needed. It is the IDEAL solution for providing access in theatres, historical buildings, auditoriums, and performing arts centers and anywhere project aesthetics are a must!

For the **Architect**, it meets the ADA requirement for providing the "**SAME PATH OF ACCESS**" while preserving project aesthetics and efficient use of space.

For the **Owner**, the space is left **UNDISTURBED** while providing "SAME PATH OF ACCESS" as required by the ADA. The Lift is designed to be durable and is easy to maintain.

For the **User**, it provides that direct connection from seating to elevated areas - Controls are easy to use and are accessible. No key is required for independent operation.

Standard sizes and sidewall height

Space requirements: 72" x 72" x 24" deep

Sidewalls are 38" in height

Fully assembled unit weighs approximately 2500 lbs

Lift

Lift platform size - 36" wide x 54.75 long

Vertical lift travel - up to 36"

24" deep pit required HAL stores under level floor

Code Compliance

A variance will be required from the "Authority Having Jurisdiction (AHJ)". Before starting design or construction please contact LIFT-U for assistance.
