

LIFT-U[®] MODEL LU-6

Rising Floor Ramp

Lift-U has developed a fold-out style ramp that features a Rising Floor and additional user / operator friendly designs.

When the ramp is articulated to the ramp position, the “Rising Floor” is elevated to vehicle floor level and provides a smooth transition from the rising floor to the vehicle floor.

Stow Latch

The ramp is equipped with a stow latch to prevent ramp platform movement while stowed. The stow latch includes a simple pull handle manual release feature for emergency operation.

Electric Power Unit

Ramp Shipping Assembly

U.S. patents apply: 6,602,041; 6,843,635 B2

For the Coach Manufacturer

The ramp assembly ships with a handling frame. By attaching a sling to the handling frame the installer can manipulate the ramp for mounting with minimal effort. When the ramp is properly mounted, no additional adjustment is required.
